

Policy for livestreaming at WBC Church Services

- We livestream services to Youtube each week
- Adults and Children will not be identified by the use of full names during filming
- We will display prominent notices at the entrances to the worship centre indicating that we are livestreaming our services. We will also make every effort to ensure visitors and new-comers are aware that we are livestreaming. We would hope that anyone who has a real necessity not to be on camera would make themselves know to the welcome team.
- Our camera is located at the back of the worship centre and may sometimes show a rear-view shot of the body of the congregation.
- Those coming to the front to participate will be on camera, and will need to complete a consent form. Those aged 18 or under, or vulnerable adults, will need a consent from a parent or guardian in order to appear in shot.
- If you do not want to appear on camera at all there are a few seats available at the very back of the worship centre, either side. The entirety of upstairs in the balcony is completely camera free.

PLEASE NOTE: you are not obliged in any way to give your consent for video photography. If you consent and later wish to withdraw, you are entitled to ask us to remove your images from Youtube.
